Preface xi

In memoriam: Agnes Ruttner-Koliski (1911–1991)
by J. M. Schmid-Araya xv
Agnes Ruttner-Kolisko: a personal retrospect
by H. J. Dumont xix
Professor Dr Agnes Ruttner-Kolisko
by C. E. King xxi
Das Rädertierportrait: Walter Koste
by R. Laxhuber xxiii

PART ONE: BIOCHEMISTRY, ECOTOXICOLOGY AND HISTOCHEMISTRY

Biochemical studies on *Brachionus plicatilis*: hydrolytic enzymes, integument proteins and composition of trophi
by W. Kleinow 1
Dependence of temperature on loss rates of rotifers, lipids, and ω3 fatty acids in starved *Brachionus plicatilis* cultures
by Y. Olsen, K. I. Reitan & O. Vadstein 13
Ecotoxicological studies with the freshwater rotifer *Brachionus calyciflorus*. I. Conceptual framework and applications
by C. R. Janssen, M. D. Ferrando Rodrigo & G. Persoone 21
Ecotoxicological studies with the freshwater rotifer *Brachionus calyciflorus*. II. An assessment of the chronic toxicity of lindane and 3,4-dichloraniline using life tables
by M. D. Ferrando, C. R. Janssen, E. Andreu & G. Persoone 33
Chronic toxicity of methylparathion to the rotifer *Brachionus calyciflorus* fed on *Nannochloris oculata* and *Chlorella pyrenoidosa*
by a. Fernández-Casalderrey, M. D. Ferrando & E. Andreu-Moliner 41
Comparative laboratory studies of narcosis in *Brachionus plicatilis*
by T. Nogrady & T. L. A. Rowe 51
Polar resin embedding for *Macrotrachela quadricornifera*
by B. Dore & F. Carnemolla 57

PART TWO: AGING, DEVELOPMENT AND BEHAVIOUR

Rotifers in aging research: use of rotifers to test various theories of aging
by H. E. Enesco 59
Presence of anisotropic (birefringent) crystalline structures in embryonic and juvenile monogonont rotifers
by R. L. Wallace 71
Changes in size, biomass and production of *Euchlanis dilatata lucksiana* Hauer during its lifespan
by J. Ejsmont-Karabin, K. Siewertsen & R. D. Gulati 77

Influence of rapid changes in salinity and temperature on the mobility of the rotifer *Brachionus plicatilis*
by G. Øie & Y. Olsen 81
Influence of the concentration of oxygen on the swimming path of *Brachionus plicatilis* (Rotifera)
by D. Réale, P. Clément & A. Esparcia 87
Foraging behaviour of *Brachionus calyciflorus* (Pallas): variations in the swimming path in accordance to presence or absence of algal food (*Chlorella*)
by C. Charoy & P. Clément 95
How females of the rotifer *Asplanchna brightwelli* swim in darkness and light: an automated tracking study
by P. Mimouni, A. Luciani & P. Clément 101

PART THREE: REPRODUCTION, POPULATION DYNAMICS AND CULTURE

Sexual communication in copepods and rotifers
by T. W. Snell & P. D. Morris 109
Mixis strategies and resting egg production of rotifers living in temporally-varying habitats
by M. Serra & M. J. Carmona 117
A model evaluating the contribution of environmental factors to the production of resting eggs in the rotifer *Brachionus plicatilis*
by E. Lubzens, Y. Wax, G. Minkoff & F. Adler 127
Asexual and sexual reproduction in the rotifer *Brachionus plicatilis* cultured at different salinities
by M. Pozuelo & L. M. Lubián 139
Relationships between mixis in *Brachionus plicatilis* and preconditioning of culture medium by crowding
by M. J. Carmona, M. Serra & M. R. Miracle 145
The fecundity patterns of S and L type rotifers of *Brachionus plicatilis*
by K. Hirayama & I. F. M. Rumengan 153
Factors influencing the biomass of the rotifer *Brachionus plicatilis* in culture
by M. Yúfera, E. Pascual & J. Guinea 159
Model simulations of continuous rotifer cultures
by N. Walz 165
Rotifer population dynamics in response to increased bacterial biomass and nutrients: a mesocosm experiment
by W. Hofmann & M. G. Höfle 171
Culture of rotifers with reference to some physico-chemical properties of water in nursery pond
by M. A. Bin Habib & M. S. Rahman 177
Characterization of the bacterial flora of mass cultivated *Brachionus plicatilis*
by J. Skjermo & O. Vadstein 185

PART FOUR: GENETICS

Rotifer genetics: integration of classic and modern techniques
by E. J. Walsh 193
Random genetic drift during cyclical ameiotic parthenogenesis
by C. E. King 205

Chromosomes and isozymes of hypotriploid strains of the rotifer *Brachionus plicatilis*
by I. F. M. Rumengan, Yong Fu, H. Kayano & K. Hirayama 213
Analysis of rotifer ribosomal gene structure using the Polymerase Chain Reaction (PCR)
by E. J. Walsh & P. L. Starkweather 219
Oogenesis in *Macrotrachela quadricornifera* (Rotifera, Bdelloidea). I. Germanium eutely, karyotype and DNA content
by M. Pagani, C. Ricci & C. A. Redi 225

PART FIVE: FEEDING, TROPHIC WEBS AND BEHAVIOUR

Rotifers as predators on components of the microbial web (bacteria, heterotrophic flagellates, ciliates) – a review
by H. Arndt 231
Rotifers as predators on small ciliates
by J. J. Gilbert & J. D. Jack 247
Clearance rates of bacteria by the rotifer *Filinia longiseta* (Ehrb.) measured using three tracers
by A. L. Ooms-Wilms, G. Postema & R. D. Gulati 255
Particle size dependent feeding by the rotifer *Brachionus plicatilis*
by O. Vadstein, G. Øie & Y. Olsen 261
Feeding in *Euchlanis dilatata lucksiana* Hauer on filamentous cyanobacteria and a prochlorophyte
by R. D. Gulati, J. Ejsmont-Karabin & G. Postema 269
Feeding responses of *Asplanchna brightwelli* (Rotifera): laboratory and field studies
by S. S. S. Sarma 275
Effectiveness of the caudal spine as a defense mechanism in *Keratella cochlearis*
by J. M. Conde-Porcuna, R. Morales-Baquero & L. Cruz-Pizarro 283
The effect of fish on planktonic rotifers
by I. V. Telesh 289
Long-term changes in the rotifer fauna after biomanipulation in Haussee (Feldberg, Germany, Mecklenburg-Vorpommern) and its relationship to the crustacean and phytoplankton communities
by D. Ronneberger, P. Kasprzak & L. Krienitz 297

PART SIX: AUTOECOLOGY, INTERACTIONS AND BDELLOID ECOLOGY

The ecology of *Synchaeta kitina* Rousselet in Loch Leven, Scotland
by L. May, A. E. Bailey-Watts & A. Kirika 305
Reproductive investment of several rotifer species
by M. D. Galindo, C. Guisande & J. Toja 317
Effect of the epizoic rotifer *Brachionus rubens* on the population growth of three cladoceran species
by N. Iyer & T. R. Rao 325
On choice of substrate and habitat bdelloid rotifers
by B. Pejler & B. Bērziņš 333
A quantitative method to extract moss-dwelling rotifers
by U. Peters, W. Koste & W. Westheide 339
Bdelloid rotifers in aerophytic mosses: influence of habitat structure and habitat age on species composition
by A. Hirschfelder, W. Koste & H. Zucchi 343

PART SEVEN: COMMUNITY ECOLOGY

Diversity and dominance in planktonic rotifers
by J. Green 345
Abundance, succession and morphological variation of planktonic rotifers during autumnal circulation in a hypertrophic lake (Heiligensee, Berlin)
by G. Fussmann 353
Responses og billabong rotifer communities to inundation
by L.-W. Tan & R. J. Shiel 361
Rotifer vertical distributions in a meromictic basin of Lake Banyoles (Spain)
by M. R. Miracle & M. T. Alfonso 371
Vertical distribution of planktonic rotifers in a karstic meromictic lake
by J. Armengol-Díaz, A. Esparcia, E. Vicente & M. R. Miracle 381
The rotifers of Lake Peipus
by T. Virro & J. Haberman 389
Rotifer communities from some Araucanian lakes of southern Chile
by J. M. Schmid-Araya 397
The use of rotifer communities to provide a preliminary national classification of small water bodies in England
by R. M. Pontin & J. M. Langley 411
Rotifer assemblages: a contribution to the typology of Spanish reservoirs
by J. De Manuel & J. Armengol 421
Rotifers in ephemeral ponds of Doñana National Park
by N. Mazuelos, J. Toja & C. Guisande 429
Distribution of rotifers in a Floridian saltwater beach, with a note on rotifer dispersal
by P. N. Turner 435

PART EIGHT: TAXONOMY AND BIOGEOGRAPHY

Taxonomic problems with the species *Keratella hiemalis*
by A. Ruttner-Kolisko 441
Cephalodella edax sp. nov. A rotifer parasitic in the motile colonial alga *Uroglena volvox* Ehrenberg
by E. D. Hollowday 445
Rotifers of the genus *Proales* from saline springs in the Namib desert, with the description of a new species
by C. K. Brain & W. Koste 449
Trans-Tasman variation in Australasian *Filinia* populations
by R. J. Shiel & L. Sanoamuang 455
Contribution to the rotifer fauna of subarctic Greenland (Kangerlussuaq and Ammassalik area)
by W. H. De Smet, E. A. Van Rompu & L. Beyens 463
Contribution to the knowledge of the Rotifera of Mexico
by R. Rico-Martínez & M. Silva-Briano 467
Zoogeography of Pacific Ocean islands: a comparison of the rotifer faunas of Easter Island and the Galápagos archipelago
by H. Segers & H. J. Dumont 475
New records of rotifers from the South Island lakes, New Zealand
by L. Sanoamuang & V. M. Stout 481

PART NINE: PHYLOGENY

Phylogeny of the phylum Rotifera: a workshop
by R. L. Wallace 491
Old and new data on Seisonidea (Rotifera)
by C. Ricci, G. Melone & C. Sotgia 495
SEM observations on *Seison* and phylogenetic relationships of the Seisonidea (Rotifera)
by G. I. Markevich 513
Phylogenetic relationships of Rotifera to other vermiform taxa
by G. I. Markevich 521
The phylogeny of rotifers: molecular, ultrastructural and behavioural data
by P. Clément 527
Principal directions of the evolution of Monimotrochida
by L. A. Kutikova & G. I. Markevich 545
Hierarchal gene trees and molecular phylogeny of the Rotifera: use of the Polymerase Chain Reaction (PCR) to dissect ecological and evolutionary patterns
by P. Starkweather 551

PART TEN: HISTORY OF ROTIFER RESEARCH

A short history of western European rotifer research
by W. Koste & E. D. Hollowday 557
